Food and Drug Administration

[Docket No. FDA-2018-P-3883]

Determination That CORTISPORIN (Hydrocortisone/Neomycin Sulfate/Polymyxin B Sulfate) Otic Solution, 10 Milligrams/Milliliter Hydrocortisone, 3.5 Milligrams Base/Milliliter Neomycin Sulfate, 10,000 Units/Milliliter Polymyxin B Sulfate, Was Not Withdrawn From Sale for Reasons of Safety or Effectiveness

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA or Agency) has determined that CORTISPORIN (hydrocortisone/neomycin sulfate/polymyxin B sulfate) otic solution, 10 milligrams (mg)/milliliter (mL) hydrocortisone, 3.5 mg base/mL neomycin sulfate, 10,000 units/mL polymyxin B sulfate, was not withdrawn from sale for reasons of safety or effectiveness. This determination means that FDA will not begin procedures to withdraw approval of abbreviated new drug applications (ANDAs) that refer to this drug product, and it will allow FDA to continue to approve ANDAs that refer to the product as long as they meet relevant legal and regulatory requirements.

FOR FURTHER INFORMATION CONTACT: Kate Greenwood, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 51, Rm. 6286, Silver Spring, MD 20993-0002, 240-402-1748.

SUPPLEMENTARY INFORMATION: In 1984, Congress enacted the Drug Price Competition and Patent Term Restoration Act of 1984 (Pub. L. 98-417) (the 1984 amendments), which

authorized the approval of duplicate versions of drug products under an ANDA procedure.

ANDA applicants must, with certain exceptions, show that the drug for which they are seeking approval contains the same active ingredient in the same strength and dosage form as the “listed drug,” which is a version of the drug that was previously approved. ANDA applicants do not have to repeat the extensive clinical testing otherwise necessary to gain approval of a new drug application (NDA).

The 1984 amendments include what is now section 505(j)(7) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(j)(7)), which requires FDA to publish a list of all approved drugs. FDA publishes this list as part of the “Approved Drug Products With Therapeutic Equivalence Evaluations,” which is known generally as the “Orange Book.” Under FDA regulations, drugs are removed from the list if the Agency withdraws or suspends approval of the drug’s NDA or ANDA for reasons of safety or effectiveness or if FDA determines that the listed drug was withdrawn from sale for reasons of safety or effectiveness (21 CFR 314.162).

A person may petition the Agency to determine, or the Agency may determine on its own initiative, whether a listed drug was withdrawn from sale for reasons of safety or effectiveness. This determination may be made at any time after the drug has been withdrawn from sale, but must be made prior to approving an ANDA that refers to the listed drug (§ 314.161 (21 CFR 314.161)). FDA may not approve an ANDA that does not refer to a listed drug.

CORTISPORIN (hydrocortisone/neomycin sulfate/polymyxin B sulfate) otic solution, 10 mg/mL hydrocortisone, 3.5 mg base/mL neomycin sulfate, 10,000 units/mL polymyxin B sulfate, is the subject of NDA 050479, held by Monarch Pharmaceuticals LLC, and initially approved on December 9, 1975. CORTISPORIN is indicated for the treatment of superficial

bacterial infections of the external auditory canal caused by organisms susceptible to the action of the antibiotics.

CORTISPORIN (hydrocortisone/neomycin sulfate/polymyxin B sulfate) otic solution, 10 mg/mL hydrocortisone, 3.5 mg base/mL neomycin sulfate, 10,000 units/mL polymyxin B sulfate, is currently listed in the “Discontinued Drug Product List” section of the Orange Book.

Foley & Lardner LLP submitted a citizen petition dated October 11, 2018 (Docket No. FDA-2018-P-3883), under § 10.30 (21 CFR 10.30), requesting that the Agency determine whether CORTISPORIN (hydrocortisone/neomycin sulfate/polymyxin B sulfate) otic solution, 10 mg/mL hydrocortisone, 3.5 mg base/mL neomycin sulfate, 10,000 units/mL polymyxin B sulfate, was withdrawn from sale for reasons of safety or effectiveness.

After considering the citizen petition and reviewing Agency records and based on the information we have at this time, FDA has determined under § 314.161 that CORTISPORIN (hydrocortisone/neomycin sulfate/polymyxin B sulfate) otic solution, 10 mg/mL hydrocortisone, 3.5 mg base/mL neomycin sulfate, 10,000 units/mL polymyxin B sulfate, was not withdrawn for reasons of safety or effectiveness. The petitioner has identified no data or other information suggesting that CORTISPORIN (hydrocortisone/neomycin sulfate/polymyxin B sulfate) otic solution, 10 mg/mL hydrocortisone, 3.5 mg base/mL neomycin sulfate, 10,000 units/mL polymyxin B sulfate, was withdrawn for reasons of safety or effectiveness. We have carefully reviewed our files for records concerning the withdrawal of CORTISPORIN (hydrocortisone/neomycin sulfate/polymyxin B sulfate) otic solution, 10 mg/mL hydrocortisone, 3.5 mg base/mL neomycin sulfate, 10,000 units/mL polymyxin B sulfate, from sale. We have also independently evaluated relevant literature and data for possible postmarketing adverse

events. We have found no information that would indicate that this drug product was withdrawn from sale for reasons of safety or effectiveness.

Accordingly, the Agency will continue to list CORTISPORIN (hydrocortisone/neomycin sulfate/polymyxin B sulfate) otic solution, 10 mg/mL hydrocortisone, 3.5 mg base/mL neomycin sulfate, 10,000 units/mL polymyxin B sulfate, in the “Discontinued Drug Product List” section of the Orange Book. The “Discontinued Drug Product List” delineates, among other items, drug products that have been discontinued from marketing for reasons other than safety or effectiveness. FDA will not begin procedures to withdraw approval of approved ANDAs that refer to this drug product. Additional ANDAs for this drug product may also be approved by the Agency as long as they meet all other legal and regulatory requirements for the approval of ANDAs.

If FDA determines that labeling for this drug product should be revised to meet current standards, the Agency will advise ANDA applicants to submit such labeling.

Dated: March 29, 2019.

Lowell J. Schiller,

Acting Associate Commissioner for Policy.
